## Wireless Discussion System

# KAC-CWD3000CU Digital Discussion ControlUnit

### **DESCRIPTION**

The KAC-CWDx000 Series of digital wireless audio discussion system is equipped with the latest features assuring reliability, flexibility, modularity and value to achieve the best conferencing experience.

The KAC-CWDv000CU is the heart of Ultrakpa digital discussion system; its innovative resilient fully expandable design featuring premium performance, simple plug and play operation. The KAC-CWD3000CU supports 8 channels and cascadable up to 50/100 discussion units.

It supports up to 100 meters operation range, all these features and more make the KAC-CWDx000 Series the perfect solution that combines easy setup and professional audio quality all in elegant design that fits any venue.

#### **MAIN APPLICATIONS**

- In meeting rooms and corporate settings, these systems enable participants to share insights and ideas seamlessly by providing a platform for constructive dialogue, they help teams address and resolve conflicts efficiently, ensuring that all voices are heard and valued.
- In educational institutions, this series promotes critical thinking and peer. These systems facilitate collaborative projects and group activities, allowing learners to explore diverse perspectives and deepen their understanding of complex topics.

### **MAIN FEATURES**

- Plug and Play Operation
- 50 MHz Bandwidth Frequency Selection
- Up to 100 meter Operation Range
- Cascadable up to 50/100 Units
- **TECHNICAL SPECIFICATIONS**

Operation Frequency	600-900 MHz
Signal to Noise Ratio	>105dB
THD	<1.5%
Operation Range	Up to 100 meter
Storage Temperature	-10°C to +60°C
Operation Temperature	0° to +40°C

- Rugged, Elegant and Rack Mountable
- Supports 8 channels
- 12V DC Operation
- Compatible with KAC-CWD2000

Humidity	80%RH to at least +65°C (non condensing)
Power Supply	DC 12V
Altitude	3000 meter maximum
Color / Finish	Black
