

# FlexPRO Public Address Modules

## KAK ACCESSORY MODULES

KAK1201 Tuner Module

KAK 31 Cassette-player module

KAK1203 Tuner/cassette module

KAK3210 FM/CD Player Module\*

KAK2111T Digital Message Module

The feature that sets Ultrak's mixer preamplifier-amplifiers apart is their exceptional flexibility due to the modular construction.

Each unit has a port which can receive a variety of modules, such as a tuner module (KAK1201), a cassette-player module (KAK31), a tuner/cassette module (KAK1203), a FM/CD player module (KAK3210), and a digital message module (KAK2111T).

With the KAR1201 expansion cabinet up to two more modules can be connected to the mixer/amplifier.

With the Ultrak public address equipment reliability, compatibility, modularity, and power are within reach of your budget.

- **Five accessory modules available:**
  - AM/FM tuner with 18 presets
  - Cassette player with auto-reverse
  - AM/FM tuner with cassette player
  - FM/CD player module
  - Digital message module
- **Compatible with Ultrak KAA and KAB series mixer/amplifiers**
- **Use KAR 1201 expansion cabinet to allow up to two additional accessory modules to be connected to a KAA or KAB series mixer/amplifier**
- **3-year limited warranty (90 days on tape heads and laser pickup)**

# FlexPRO Public Address Accessory Modules

## TECHNICAL SPECIFICATIONS

**KAK1201 Tuner module**

The KAK1201 is an AM/FM tuner module (PLL). It is equipped with an LCD frequency display with manual tuning and 6+6 FM and 6 AM presets, as well as a level control ON/OFF switch, and an LED tuning indicator.

**KAK31 cassette module**

The KAK31 is a cassette-player module. It is equipped with an auto-reverse system, fast forward/reverse, eject and direction LEDs, and a pause button.

**KAK1203 AM/FM Cassette player module**

THE KAK1203 is an AM/FM tuner with 6+6 FM presets and 6 AM presets, LCD frequency display, plus an auto-reverse cassette player with fast forward and reverse functions and tape direction LED indicators.

**KAK2111T Digital Message Module**

A digital audio messaging unit which allows up to six messages to be recorded and played back when triggered, or by preset time intervals. MG RAM standard, upgradeable to 32MG with the 16 KAK2311 Memory Expansion Kit. 16MG RAM allows 4 min. 56 sec. of record time, divisible by the six memory banks. A backup battery protects messages during power loss.

**KAK3210 FM/CD Player Module\***

This module features both an AM/FM tuner and a CD player! The CD player features continuous repeat and random play. The FM tuner allows up to 18 stations to be stored in memory, and the AM tuner features 12 presets. A backlit LCD display provides track (CD) and tuning (FM) information. An independent level control is provided.

**KAR1201 expansion cabinet**

The KAR1201 is an expansion cabinet for use with the KAA and KAB FlexPRO series of mixer amplifiers, and the KAP digital mixer. Up to two KAK accessory modules can be used with the KAR1201. The KAR1201 draws power directly from the KAA or KAB series mixer pre-amplifier-amplifier.
